Mumbai, India | +91 9869388798 | akshitajain1207@gmail.com | LinkedIn | Research Portfolio

PROFILE

Finance research and valuation candidate pursuing a B.Com. with hands-on work in equity research, financial modelling, comparable-company valuation and transaction analysis. Built Excel-based valuation models and independent research across technology and financial services, with a focus on earnings drivers, valuation methodology, transaction economics and investment conclusions. CFA Level I Candidate | Target: February 2027.

TECHNICAL SKILLS

Valuation & Modelling: DCF, Comparable Company Analysis (CCA), P/B & P/TBV, WACC & CAPM, Financial Modelling, Sensitivity Analysis

Financial Analysis: Financial Statement Analysis, Ratio Analysis, Company Analysis, Profitability & Growth Analysis, Earnings-Call Analysis

Research & Transactions: Equity Research, Sector Research, Industry Research, Competitive Analysis, M&A; Analysis, Transaction Analysis

Tools: Microsoft Excel, Microsoft PowerPoint, Screener.in

SELECTED FINANCE, VALUATION & EQUITY RESEARCH PROJECTS

Coforge | Equity Research Report

- Evaluated the \$220M Cigniti acquisition, assessing strategic rationale, cross-selling and synergy potential alongside business segments, industry dynamics and growth drivers.
- Assessed 31.5% FY25 revenue growth and a \$1.5B NTM executable order book (+47.7% YoY) as key operating indicators.
- Triangulated a five-year FCFF DCF with forward P/E and EV/EBITDA cross-checks; identified a valuation gap between INR 1,077 DCF value and ~INR 1,706-1,927 comps-based values.

HDFC Bank x HDFC Ltd | M&A; Analysis

- Analysed merger structure, strategic rationale and transaction economics across the loan book, deposit franchise, profitability, capital position and competitive positioning.
- Rebuilt the 42:25 share-swap structure and assessed pro-forma ownership and earnings implications for HDFC Ltd. shareholders.
- Estimated 11.3% static EPS dilution before synergies and INR 7,676 crore incremental annual PAT required for EPS break-even; stress-tested exchange-ratio and synergy scenarios.

Axis Bank | Comparable Company Analysis

- Built a peer-based valuation framework across HDFC Bank, ICICI Bank and Kotak Mahindra Bank, with Federal Bank as secondary context, using P/B, P/TBV and P/E.
- Integrated ROE, NIM, growth, profitability and asset-quality metrics to distinguish multiple differences driven by operating fundamentals.
- Derived peer-median implied values of ~INR 1,523-1,571 versus an INR 1,257 reference price, indicating ~21-25% valuation upside.

Netflix | DCF Valuation

- Built a five-year DCF covering revenue, operating margins, free cash flow, terminal value and the equity-value bridge using historical operating performance to frame assumptions.
- Performed WACC and terminal-growth sensitivity analysis to test valuation robustness and identify the assumptions with the greatest impact on intrinsic value.

RESEARCH & PUBLICATIONS

The Capital Question | Founder — Founded an independent finance research publication focused on businesses, valuation, transactions, markets and research-led analysis.
